WHEELER'S "PARK CITY" LAWN GRASS SEED

The Formation of Velvety Lawns

The main point in having a beautiful lawn is to start right. In the first place, see that the ground is thoroughly drained and well prepared with 6 to 12 inches of good soil for the top dressing. The best soil is a good medium texture, neither very heavy nor excessively light. Have all roots, loose stones and lumps of earth removed, and the surface bushed or raked down perfectly smooth previous to sowing. Early Spring or Fall is the best time to sow the seed. When the soil is in the proper condition, level, and suitable moist, sow our seeds at the rate of 3 to 4 bushels (48 to 64 lbs.) per acre, after which rake lightly and give a thorough rolling. One pound of seed will sow a plot of about 200 square feet. When the grass has become sufficiently established it should be frequently cut. The oftener this is done the finer and softer the grass will be.

The Best Mixture in the Market

We believe that our Lawn Grass Seed is one of the best mixtures in the market. It was carefully selected, has been all recleaned, and we therefore offer it to the public with the fullest confidence in its superior quality. We sell it by the pound instead of by the quart (or measure). By this method of exchange the seed costs the purchaser less than when bought by measure.

We have taken great pains in the preparation of our Lawn Grass Seed, and believe we have succeeded in producing a combination which will grow and establish a fine lawn under all conditions except that of utter neglect. The different varieties of grass ripen at different times of the year, and in order to have a perfect lawn, it is necessary to so combine the kinds that, as one ripens and dies, another is ready to take its place without making any difference in the appearance of the lawn. **OUR BEST MIXTURE** is made up in exactly the correct proportion to produce the most satisfactory results, and we cheerfully recommend it to all who desire a first-class lawn.

Price: Lb. 35c., 10 lbs. \$3.00, bus. \$7.50

WHEELER'S "SHADY LAWN SEED"

Containing a mixture that will withstand conditions under trees and shrubbery, and the shade of buildings. Good, fertile soil and plenty of moisture should be provided. **Price: Lb. 50c., 10 lbs. \$4.50**

WHITE DUTCH CLOVER SEED

Excellent for use on lawns and in grass seed mixtures. **Price: Lb. 50c., 10 lbs. \$4.50**

Petunia—Flaming Velvet

Super-Giant ASTER El Monte

Special Mention

All-American Selections, 1936

Deep glowing crimson, composed of quantities of interlaced, plumelike petals, the flowers are extremely large and fluffy, borne on long branching stems. This earliest giant-flowering Aster we highly recommend to you. **Per packet 25c.**

PETUNIA Flaming Velvet

Gold Medal Winner

All-American Selections, 1936

Seeds of this new Petunia should be planted in every garden. Its color is a rich and brilliant blood red, with a velvet sheen, and the flowers borne on long stems are fine for cutting.

Per packet 25c.

MARIGOLD Dixie Sunshine

Award of Merit

All-American Selections, 1936

This is an entirely new Chrysanthemum-flowered type of Marigold, sensationally new and fascinating. It comes 100 per cent fully double without the familiar Marigold odor in the flowers.

Per packet 25c.

Super-Giant Aster—
El Monte

PETUNIA

Rose Gem

Award of Merit

All-American Selections, 1936

One of this year's outstanding novelties. Rose Gem is a charming addition to the miniature group of Petunias which was started with Pink Gem.

It is the deep rose color that has made Petunia Rose of Heaven so popular. The plant is neat and compact, 5 to 6 inches high and smothered with rich, rose colored blooms about 2 inches in diameter.

Per packet 25c.

PETUNIA

Dainty Lady

Award of Merit

All-American Selections, 1936

Not in many years has an entirely new color in Petunias been introduced to the gardening public.

It is the first really yellow Petunia. Plants are neat and compact, and free flowering.

You and your friends will be thrilled with this brand new Petunia color. Plant with Ageratum for good color contrast.

Per packet 25c.

Marigold—Guinea Gold

NASTURTIIUM

Dwarf

Double Golden Globe

Award of Merit

All-American Trials, 1936

Identical in color with the popular Golden Gleam. The dwarf, compact plants are free flowering, and the well-formed, double flowers of deep golden yellow are delicately sweet-scented.

Per packet 25c.

Nasturtium—Golden Gleam

ZINNIA

Mexican Mixed

With their glorious combinations of orange and yellow shades, no finer flower could be had for cutting and flower arrangement.

Double, Mixed Colors, packet 10c.

ZINNIA—*Fantasy*

As different from the ordinary stiff, formal Zinnias as one can imagine, the delicate, lacy-petaled flowers lend an air of friendly informality to the garden or flower arrangement. Don't fail to plant some Fantasy this year.

Mixed Colors, packet 20c.

Zinnia—Fantasy

COSMOS

Orange Flare

Granted the highest honor that can be bestowed on a new flower variety in the United States, Orange Flare has proven itself worthy of this honor. It will bloom easily in four months from seed. The plants bloom abundantly, presenting a gorgeous mass of color.

Packet 10c.
